LIPSTICK READING

Lipstick Reading is a modern adaptation of the ancient art of Chinese face reading, which uses the features of the face to gain insights into a person's personality, tendencies, and future. Add a twist of fashion, a pinch of fun, and a dash of transformational wisdom, to your next special event. It's suitable for public and private entertainment venues. Lipstick Reading by Beth is available for launches, promotions, milestone celebrations, corporate events, and fundraisers.

"The readings were spot on, and even the skeptics felt like they'd do it again and again with their mom, sisters or girlfriends for a fantastically fun and original experience."
